One earmark of a successful school is the volunteer program. We are now in the process of building our volunteer program and creating mechanisms that will facilitate our ability to identify needs and matching those who want to help support our students and staff by volunteering resources and/or time. Please complete the form below and return it to the school by APRIL 16TH. The information will be loaded into a database and organized so that we will enable us to match our needs with those who are willing to fill those needs.

These are some of the opportunities where volunteers can make a difference. Our goal is to have a pool of volunteers for each opportunity so that no one person fills responsible for "doing it all" for any one "event" unless they specifically desire to do so.
